SUMMARY

I'm a Front-End Developer focused on building modern, responsive, and easy-to-use web applications. Over the past five months, I've been consistently improving my skills by working with the core front-end technologies and turning designs into clean, functional interfaces that work well across all devices.

I work primarily with HTML, CSS, and JavaScript, and I build applications using React, Next.js, and TypeScript. For styling, I use Tailwind CSS, and I use GSAP when I need smooth and engaging animations.

I enjoy breaking down problems and building solutions that are simple, scalable, and maintainable. Whether it's creating reusable React components or refining small UI details, I focus on writing code that is clear and efficient.

I'm comfortable working in remote teams and understand the importance of communication, collaboration, and meeting deadlines. I'm always open to feedback and continuously looking for ways to improve my work.

Right now, I'm looking for an opportunity to contribute as a Front-End Developer. If you're working on something interesting or have a role that fits my skills, feel free to reach out — I'd be glad to connect.

EXPERIENCE

Frontend Developer

Home

11/2025 - Present [Multan, Pakistan](#)

- Developed high-conversion E-commerce applications that prioritize user experience and performance, increasing customer engagement and driving business growth.
- Developed data-driven financial dashboards with clear visualizations and reliable logic to support accurate decision-making.
- Implemented real-time data handling and efficient state management to ensure fast performance and consistent application behavior.
- Created modular and reusable code structures to improve maintainability, simplify team collaboration, and speed up development.
- Designed and deployed responsive web applications that work seamlessly across devices while maintaining consistent UI and branding.

EDUCATION

BS Cyber Security

Bahauddin Zakariya University

09/2024 - Present [Multan, Pakistan](#)

Intermediate (FSC. Pre Medical)

Muslim College of Science and Commerce
